THANKS!

Every publication bears the stamp of one or two key persons who have been responsible for a multitude of daily decisions involved in the production process. Eileen Deitcher has been our key person. We are sincerely grateful for her uncompromising passion for accuracy and her masterful coordination of production activities.

We are also indebted to the following persons who made major contributions: Julia Schreifels, Laura Freundlich, Boyd Koehler, Don Yaeger, and Robin PanLener.

Indeed, it is a humbling process to assemble the list of persons who helped us with this edition of the Minnesota Pocket Data Book. (And our apologies to those we might have omitted.) We couldn't have done it without you. Thanks!

INTRODUCTION

Information in the Minnesota Pocket Data Book has been compiled from a variety of sources. In areas where two or more sources provide conflicting statistics, we have selected what we consider to be the most reliable data.

The time lag in the publication of official statistics is a constant problem for all data users. In every case, we have used the most recent statistics available. Unless otherwise noted, all statistics are for the State of Minnesota or for areas within the state. In some cases, column totals and numerical amounts may not add exactly because of independent rounding.

Your comments, corrections and criticisms are always welcome. Our goal is to provide Minnesotans with a broad data base that will form the foundation for future planning and we will consider any suggestion that contributes to that process.

HOW TO READ OUR COMPUTER PIE CHARTS

All computer pie charts show percentage breakdown into categories. The percentage for each category is shown below the appropriate category label. In addition, some pie charts provide the actual *quantity* for each category. The quantity figure would then be listed under the category label to the left of the percentage figure. When large numbers are involved, the quantity numbers have been abbreviated and the overall denomination (hundreds, thousands, etc.) is listed directly under the pie. For example, if the quantity listed under the label is 16.2 and the denomination under the pie is "Millions of $," the actual quantity is $16,200,000.

[1] Net migration is the excess of in-migrants over out-migrants or vice versa.

[2] The number of net migrants is the difference between expected population based on survival rates, and the actual census population. Expected population is an estimate of population if no one moved and population changed only because of births and deaths.

[3] The net migration rate is the number of net migrants per 100 expected population.

MILITARY

MILITARY SUMMARY
F.Y. 1980-81

Number of Minnesotans in National Guard		
Part-time		10,233
Army Guard	(8,120)	
Air Guard	(2,103)	
Full-time		1,329
Federally Paid[1]	(1,092)	
State Paid	(237)	
Federal Dollars Disbursed in Minnesota For National Guard		$115.1 million
State Dollars Disbursed For National Guard		$ 10.7 million
Military Training at Camp Ripley[2]		
Number of Troops		76,399
Training Troop-Days		662,145
Minnesota's Air National Guard Aircraft		
C-130A Hercules Transports[3]	(9)	
RF4 Phantom Fighter-Reconnaissance Aircraft[4]	(20)	
Total		29
Value:		$71.3 million

[1] Most full-time federally paid technicians also are members of part-time Guard units.

[2] Camp Ripley is the primary training site for Minnesota. These figures do not include aerial missions flown over Camp Ripley.

[3] Stationed at Minneapolis-St. Paul International Airport

[4] Stationed at Duluth International Airport

OUR INFORMATION SERVICE

In the course of preparing this document, we have collected thousands of pages of statistical data—both published and unpublished—and we have examined many thousands more. Space considerations forced us to select only the highlights and summary data of various subjects when, in fact, there is much more information worthy of inclusion.

If this book does not supply the information you are looking for, we will gladly research your specific questions for a negotiable fee (usually hourly). We may even have the information you are looking for at our fingertips. Please give us a call—612/774-2920. We'll be happy to discuss our service. Or fill in one of the order blanks below and send it to us. We will then provide you with an estimated cost and delivery. Of course, there is no obligation.

Please provide me with an estimated cost and delivery for the information requested.
